GeoRide

Welcome to GeoRide

The reference in the connected two-wheelers field.

"GeoRide aims to become a key brand in the world of two-wheelers thanks to its unique ecosystem around the connected motorcycle."

- *Thomas Chambon, Founder of GeoRide.*

The best way to **protect** and **connect** your motorcycle.

Founded in June 2018 and based in Toulouse, GeoRide quickly established itself as a leader in the world of connected motorcycles. Our modern approach to this ancient motorized two-wheelers world is changing how enthusiasts are riding.

Our mission is to modernize the motorcycle and to preserve the unique freedom it provides.

and in the USA

01 GPS TRACKER

SPECIALLY DESIGNED FOR MOTORCYCLES

02 CONNECTED ALARM

SILENT AND REMOTE-CONTROLLED SIREN

03 CRASH DETECTOR

WITH EMERGENCY SERVICES AUTO-CALL

GPS TRACKER

SPECIALLY DESIGNED FOR THE MOTORCYCLE

Locate in real time

Enjoy precise localization thanks to a position updated every second for real time tracking.

Relive your journeys

With the Replay Mode, fully relive your trips : from speed to incline, including the weather.

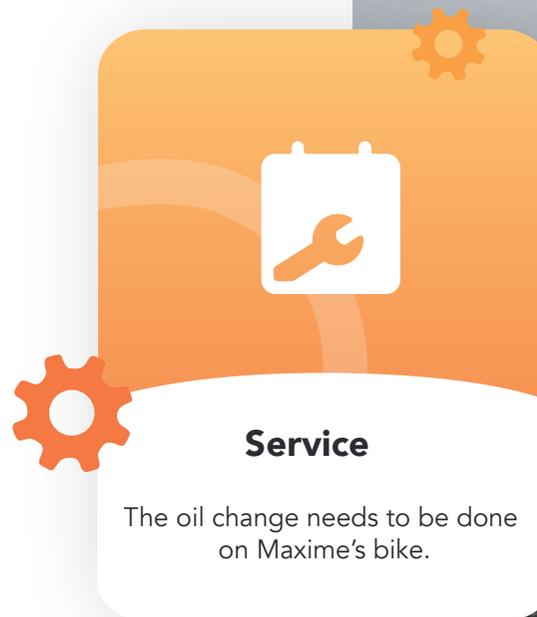

■ Share the access to your application

Your loved ones can follow your journeys and also receive a notification when you arrive at your destination.

■ Track Your Maintenance

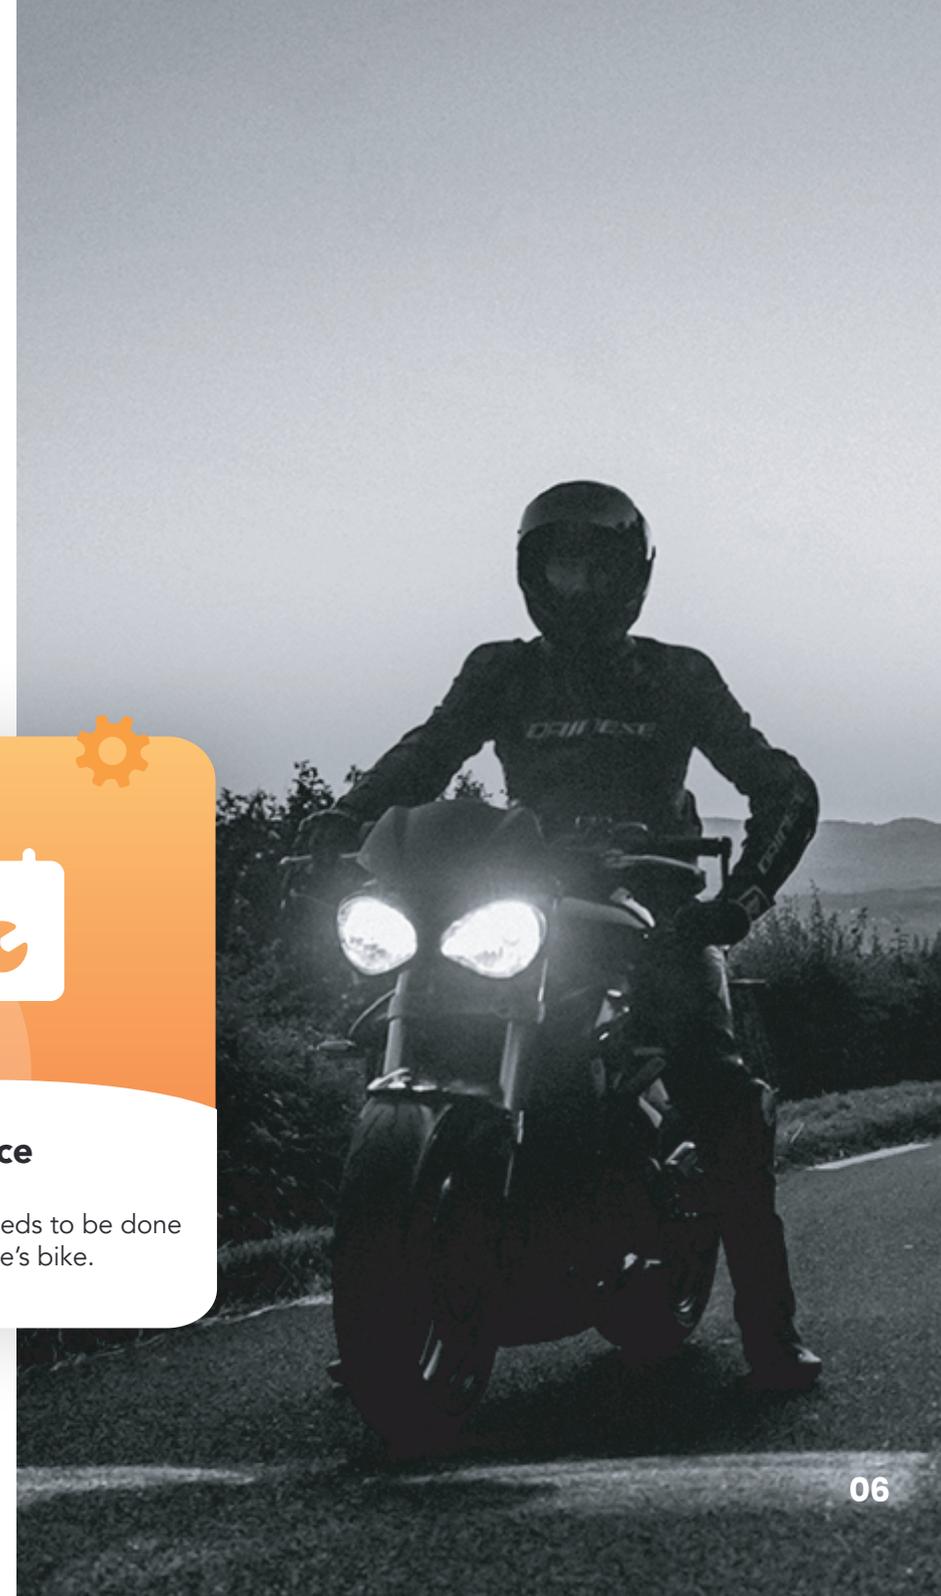

GeoRide lets you know when it's time to check your tire pressure, lubricate your motorcycle chain or to do any recurrent service on your bike.

The card features a white background with rounded corners. At the top right is a small orange gear icon. In the center is a white calendar icon with a wrench symbol. Below the icon, the word "Service" is written in bold black text. At the bottom, a white text box contains the message: "The oil change needs to be done on Maxime's bike." A larger orange gear icon is positioned to the left of the card.

Service

The oil change needs to be done on Maxime's bike.

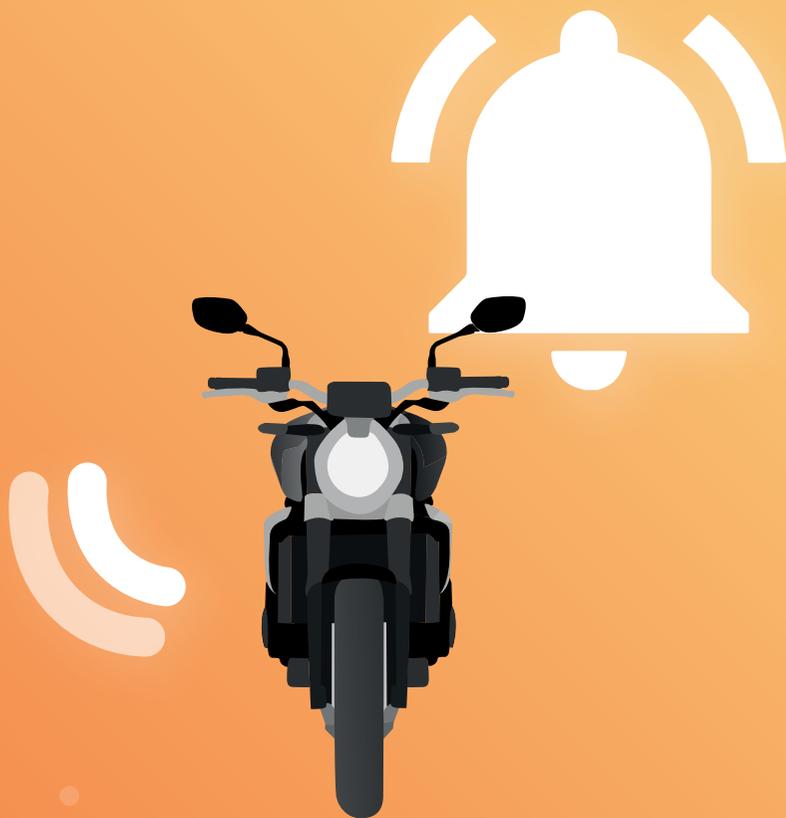

CONNECTED ALARM

SILENT AND REMOTE-CONTROLLED SIREN

Notification or call

At the slightest movement of your motorcycle, you are instantly warned by a notification or a phone call.

Remote-controlled Siren

After an alert, you can trigger your anti-theft siren remotely, howling up to 130 dB. You can set the siren to automatically activate at the slightest jerk.

FALL DETECTOR

WITH EMERGENCY SERVICES AUTO-CALL

Self-Sufficient

GeoRide functions on its own and have multi-operator coverage.

Reliable

GeoRide's sensors allow for precise and high-performance crash detection.

Emergency Call

How does it work ?

1

Crash Detected

Thanks to the integrated gyroscope, GeoRide detects that the motorcycle has been on its side for a short period of time.

2

Check-up

Available 24/7, our assistance service calls you 3 times to find out about your state of health.

3

Emergency response

The emergency services will contact you right away. If you are not able to answer and that your bike is still not moving, a emergency team will be dispatch to your location to rescue you.

New Features

Proximity Badge

The badge allows you to activate or deactivate protection automatically when you are near the motorcycle.

Improved range

GeoRide continuously protects your motorcycle even after several months without riding it.

Remote-controlled Siren

GeoRide is the only anti-theft device to have a fully remote-controllable siren.

Underground coverage

4G LTE-M technology allows for optimal operation in most underground areas.

New Features

Galileo Constellation

The new Galileo constellation developed by the European Union allows for very high precision localization.

Anti-jamming

GeoRide is the only GPS Tracker to have a unique hybrid communication system.

Watertightness IP54

The housing is resistant to dust and water splash.

Eco Mode

Useful for motorcycles without a battery. Recharge your GeoRide via USB cable and protect your motorcycle without using any wires.

COMING SOON

A patrol to the scene

In the event of a theft, the police will be notified immediately.

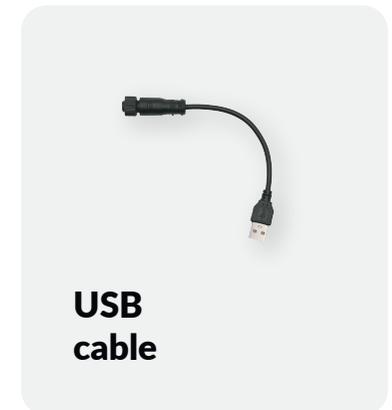

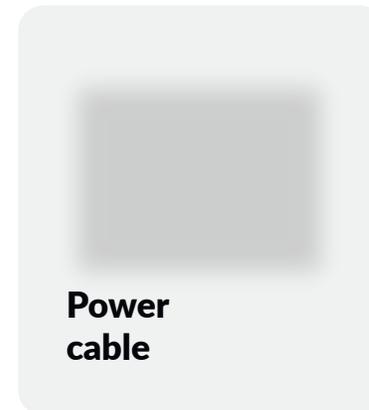

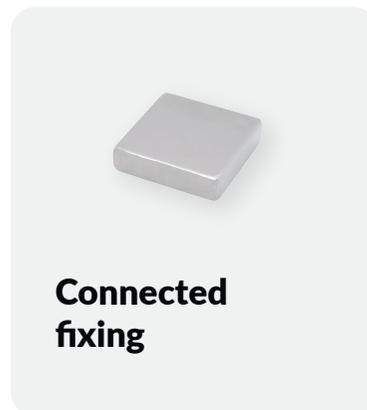

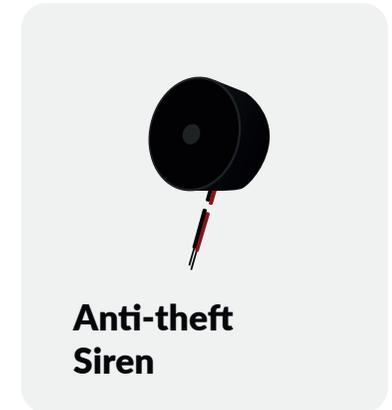

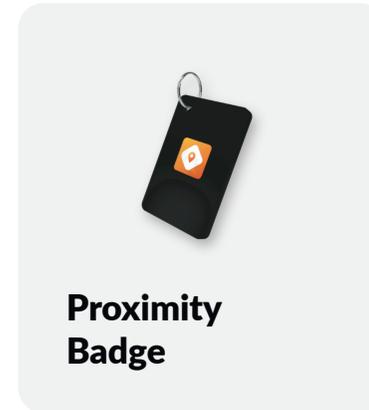

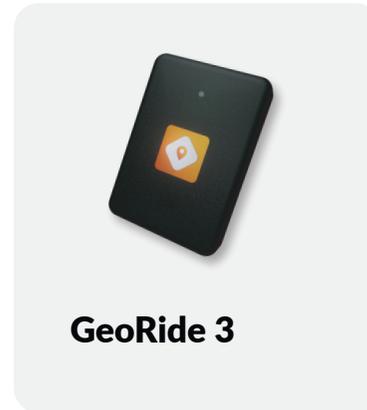

At your signal, they can access your vehicle's position to send a patrol on the scene.
